

VOLUNTEER HOSPICE OF CLALLAM COUNTY

SOUL CARE SPEAKER SERIES

Spiritual Care

What It Is & How It Heals

with Rev. Lynda Elaine Carré

Wednesday May 10, 2023, noon-1:30 p.m.

Rev. Carré will share her wisdom, extensive specialized education, and direct experience in providing spiritual care and healing arts as an interfaith clinical chaplain for hospice and palliative care in healthcare systems and in private practice. She will define Spiritual Care and highlight its critical significance in a well-supported, holistic hospice experience. More than at any other time of life, hospice is the ideal circumstance for opening sacred access to deep psycho-spiritual-emotional healing. This is made possible by being witnessed and companioned through life review and integration, legacy projects, and unconditional loving presence. Sharing stories, relationship-based approaches, and research-based best practices, she will encourage every participant to provide respectful, relational spiritual care according to each client/patient/family's beliefs and needs, while also learning to identify when and why spiritual care is better served by seasoned spiritual care professionals.

Rev. Lynda Elaine Carré has a passion and calling for mentoring and companioning the aging, ill, and the dying. She is an ordained interfaith minister, clinical palliative and hospice chaplain, yoga therapist, energy arts provider, death doula, home funeral guide, ritualist, and psychedelic integration therapist. She serves as a clinical chaplain with The Community Hospice of St. Peter's Health Partners and offers death doula, home funeral guide, rituals, and psychedelic integration services privately.
